

INTERNATIONAL PREPARATORY CLASS

SPECIALTY ECONOMICS AND MANAGEMENT

WELCOME TO NICE, CAPITAL OF FRENCH RIVIERA

Located on the Mediterranean coast, between the sea and the mountains, in a timeless light, Nice cultivates the charm of its difference and contrasts between its original proximity to Italy and its French modernity. The Métropole Nice Côte d'Azur, the first to be set up in France, has 550 000 inhabitants, including 35 000 students. The second most important tourist destination in France, it attracts 10 million tourists every year thanks to the possibilities of its international airport, the most important in province, located less than ten minutes from the city center: a plane leaves for Paris every half hour and you can easily organize a week end. With 300 days of sunshine per year (Air Quality Index below 20!), the city of Nice offers visitors the eight kilometers of beaches at the foot of The Promenade des Anglais but also access to six ski resorts and the Mercantour National Park, a paradise for hikers.

Goal of the training

- To allow access to the **Licence Economie-Gestion** (Bachelor's degree in Economics-Management) for international students
- To **obtain the TCF - level B2**
- To learn about specialty **disciplines** in Economics and Management.
- To learn the **methodology** of French **higher education**
- To discover the **general culture** and the **French environment**

SKILLS

Fundamental specialty courses : To allow students to develop the necessary skills to consider studying for a Licence Economie-Gestion.

French teaching : Students are specifically prepared for TCF - Level B2. They are accommodated with French families in Nice in order to be immersed in a cultural and linguistic environment (organized by the Alliance Française Nice Côte d'Azur).
